

HUSSEIN ADIB

+961-76 814 691 | hsenadib691@gmail.com | Beirut, Lebanon

Detail Oriented IT professional with a bachelor's degree in computer & communication engineering and hands-on experience in network engineering, web development, and data management. Proven track record in managing cross-functional projects, troubleshooting complex network issues, and optimizing data processes. Seeking a challenging role in IT or Network Engineering where my skills in problem-solving, strategic planning, and technical proficiency can contribute to the organization's success and innovation in technology solutions.

PROFESSIONAL EXPERIENCE

OGERO – Beirut, Lebanon	2022
<i>Network Engineer Trainee</i>	
- Gain a comprehensive understanding of the Public Switched Telephone Network (PSTN) infrastructure, including its components and architecture. - Collaborate with senior engineers to discuss, investigate, and troubleshoot various aspects of PSTN switching and transmission. - Analyze network performance and failure modes to identify issues and implement corrective actions. - Develop practical skills in cable splicing, connecting, disconnecting, and soldering to support network installation/maintenance tasks.	
FREELANCE – Lebanon	2021 – 2022
<i>Project Manager – Web Development</i>	
- Oversee entire project lifecycles from initiation to closure, ensuring alignment with client expectations and industry standards. - Lead cross-functional teams in developing web applications using React, Material-UI, and Node.js. - Manage project timelines, budgets, and resources to deliver projects on time and within budget. - Collaborate with clients to gather requirements, set project goals, and provide regular updates on progress. - Implement Agile methodologies to streamline development processes, resulting in increased efficiency and client satisfaction.	
SALEH COMPANY – Africa	2019 – 2021
<i>Data Entry Specialist</i>	
- Enter and update large volumes of data into internal databases and systems, ensuring high levels of accuracy and efficiency. - Develop and refine data entry processes to minimize errors and enhance data accuracy. - Collaborate with team members to maintain data integrity across multiple platforms, ensuring consistency/reliability of information. - Identify and implement process improvements to streamline data entry operations and increase overall efficiency. - Perform data validation and quality checks to ensure the correctness and completeness of entered data. - Manage and organize data files, maintaining an orderly system for easy retrieval and reference.	
SELF-EMPLOYED – Lebanon	
<i>Project and Social Media Marketing Lead</i>	2019 – 2020
- Develop and implement comprehensive marketing strategies to promote events and projects, ensuring alignment with client goals and objectives. - Manage and optimize social media platforms, including content creation, scheduling, and community engagement, to increase brand awareness and audience engagement. - Collaborate with cross-functional teams, including creative, technical, and sales departments, to plan and execute marketing campaigns and initiatives. - Conduct market research and analyze trends to identify opportunities for growth and improvement in marketing strategies. - Monitor and report on the effectiveness of marketing campaigns, providing insights and recommendations for future strategies.
